

# Expand your lending capabilities with fast, efficient loan funding

Always keep your credit union processing loans quickly with fast, accurate origination and funding support from our lending operations solutions. With our in-house experts and full-service document processing powered by AI, we can help you increase accuracy while always scaling to stay ahead of borrower demand. The result? More lending bandwidth and better net promoter scores. Whether it's indirect lending at the dealership, auto leases, retail lending, or working with refi brokers and fintech lenders, it's easy to use Origence Lending Services for your loan processing and underwriting needs.

## Streamline every step of the lending process

- > We receive information digitally or by paper to scan, sort, and package automatically
- > Our experts search for errors and missing documents and collect them as needed
- > We work with you and applicants, dealers, and brokers to address any exceptions
- > After verifying accuracy and completeness, we upload funded loan data to you
- > You receive funding-related reporting
- > We address inbound and outbound calls to dealers or brokers

**Underwriting Services**

We understand how mission-critical manual underwriting can be. So when you want to complement your in-house capabilities, we start by customizing our support around your credit policies and guidelines.

From there, we augment your bench strength with seasoned experts who understand the nuances and fine points that top-tier underwriting requires.
