

Advanced fraud prevention, seamless compliance, and customer insights.

Drive faster, safer deals with integrated fraud protection and compliance

Protect every deal without sacrificing speed. Reduce fraud risk, close deals faster, and simplify compliance. With CUDL and Informativ, you accelerate funding and deliver a seamless experience for your customers and your team.

Fast, multi-layered fraud detection

Stop ID and synthetic fraud before it starts. Scan driver's licenses instantly and validate identities throughout every step of the sales process—both in-store and online.

Flat rate credit and compliance

Simplify credit reporting and compliance in one solution. Control costs with a predictable monthly rate while maintaining FCRA, FTC, and Safeguards Rule compliance from credit pull to funding.

Quick qualification and buyer insights

Make it easy for customers to get prequalified from their phone—without impacting their credit. Use QR codes or secure links through a compliant app for quick, credit inquiries.

Digital deal jacket creation and storage

Compliant digital deal jackets are created for every deal and stored securely in the cloud for the FTC-required five years.
