ORIGENCE CUDL®

Fewer delays. Less hassle.

The fastest way to get CUDL deals done and funded.

Optimize your dealership's contracting efficiency.

Discover how eContracting for CUDL helps your dealership accelerate funding and reduce costly delays. With fewer errors, less contract rework, and minimal time in transit, you can cut overhead, boost customer satisfaction, and streamline the entire financing process.

DMS integration

Seamlessly integrate with your DMS to reduce manual data entry, save time, and minimize errors.

Automatic prefill

Automatically prefill information with data from the credit application, delivering complete and accurate contracts.

Real-time data validation

Catch errors and missing signatures early so credit union parameters—like loan amounts, mileage, and more—don't hold up funding.

eSign Anything®

Digitize documents by uploading PDF files and applying signature fields in a single signing ceremony.

Flexible signing

Offer a convenient and customer-friendly experience by allowing customers to review and eSign documents anytime, anywhere—in-store or remotely.

File upload

Easily upload PDFs, stips, and other documents to include in your funding package—either with the initial submission or afterward.
