EL BARRIO

El Barrio is the vibrant New York City neighborhood where the “mambo revolution” began, where Spanglish poetry gained global acclaim, and where stories of el pueblo are painted on the walls. The neighborhood holds cultural treasures of present-day East Harlem as well as 100 years of local Latino history. El Museo del Barrio is New York's leading Latino cultural institution. Representing the diversity of art and culture in all of the Caribbean and Latin America, it houses 8,000+ permanent objects that span more than 800 years of history.

ELLIS ISLAND

Between 1892 and 1954, Ellis Island was the gateway to a brand new life in the United States for about 12 million immigrants. Roughly 40% of Americans are here now because an ancestor came through Ellis Island. Today, visitors to the museum get a glimpse into the immigrant experience of the 19th and 20th centuries. This immersive experience leaves a powerful and lasting impression, covering everything from the Main Building’s baggage room (where immigrants entered just as visitors do today), to the Registry Room upstairs—where immigrants underwent medical and legal processing—to the Wall of Honor that commemorates more than 500,000 immigrants and their families.

CENTRAL PARK

Central Park is not your ordinary city park. It is 843 acres of trees, paths, man-made lakes, bridges, woods, and—of course—people. The park was designed in the mid-1800s by Frederick Law Olmsted and Calvert Vaux as part of a competition. The goal was to create a large green space in the middle of Manhattan where people could unwind and get back in touch with nature, even if just for an afternoon. These days, when the sun is shining, New Yorkers and tourists flock to Central Park to picnic, skate, toss frisbees, paddle the lake, and simply relax.
