## STEM Discovery: San Francisco

Home to some of the world's most recognizable technology companies, it's no surprise that San Francisco has a thriving science, technology, engineering, and math scene. Experience both sides of this tech-friendly region—hardware and software, art and science, city and nature, Silicon Valley and San Francisco—as you explore local museums and participate in hands-on workshops. During your tour of the Bay, you'll also discuss conservation in a redwood forest, and discover the intersections of science, art, and human perception at the Exploratorium.

# Discover the sciences

These Science, Technology, Engineering, and Math (STEM) tours are your students' chance to discover the real world applications of these subjects for themselves. Spend time with leading scientists, mathematicians, and engineers as they guide your students through workshops and hands-on demonstrations—everything from nuclear physics to robotics to engineering a bridge. Plus, there's enough time to take in the sights of the incredible cities you'll visit, too.

---

## WHAT TO EXPECT ON A STEM TOUR

### Experiential learning

Students will conduct experiments and participate in hands-on workshops. After all, learning is always more fun with a lab coat on.

### Cutting-edge locations

Explore unique cities and understand why they're home to some of the world's most advanced laboratories, universities, and companies.

### Industry experts

Let top scientists, engineers, and researchers from MIT, the Brooklyn Navy Yard, the California Academy of Sciences, and more explain the real-life value of a STEM education.

---

## YOUR EXPERIENCE INCLUDES

Full-time Tour Director; sightseeing tours; entrances to cable car ride, STEM workshop, Exploratorium, scavenger hunt, technology museum, California Academy of Sciences; 3 overnight stays in hotels; round-trip transportation; comfortable motorcoach; gratuities; breakfast and dinner daily

Take a ride on one of San Francisco's celebrated cable cars.

See Fisherman's Wharf, a waterfront neighborhood with iconic views of San Francisco Bay.

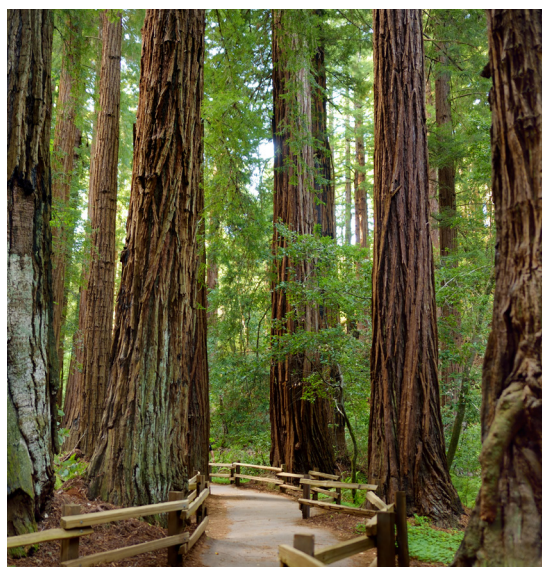

**Day 1: San Francisco**

Meet your Tour Director at the airport in San Francisco, home to some of the world's largest technology companies like Google, Meta, and Apple. Cruise the streets of the Bay Area and see Chinatown and Fisherman's Wharf. Then discuss the engineering marvels of the Golden Gate Bridge and the eight hairpin turns of Lombard Street. Finish your day riding one of San Francisco's historic cable cars, which date back to the 19th century.

^

The California Academy of Science's living roof is home to around 1.7 million plants.

&lt;

Stroll through a towering redwood forest.

**Day 2: San Francisco**

Dive into the California tech scene with a walking tour of downtown San Francisco. Start at the Salesforce Tower, the tallest building in San Francisco, and then participate in a STEM workshop. After lunch, dive further into science, art, and human perception at the Exploratorium. After dinner, enjoy an interactive, team-based scavenger hunt.

**Day 3: Silicon Valley**

Head south into Silicon Valley for an interactive, tech-centered workshop. Then, snap a selfie at Intel Headquarters, where you'll journey through decades of innovation inside the Intel Museum. Spend the afternoon visiting USS Hornet and participating in a STEM activity there.

**Day 4: San Francisco | Depart for home**

Visit the California Academy of Sciences and take a behind-the-scenes tour to see how this 160-year-old institution is able to house over 46 million specimens. Later, take in some 360-degree views from the top of the Hamon Observation Tower before boarding your plane home.

**+ 5-DAY TOUR****Day 4: Marin County**

Experience the redwood forest at Muir Woods National Monument, a majestic and beloved California ecosystem. Grab lunch in Sausalito, then head for the ocean to tour the Marine Mammal Center and learn about their work rescuing, rehabilitating, and researching marine mammals, like sea lions and otters.

**Day 5: San Francisco | Depart for home**

Visit the California Academy of Sciences and take a behind-the-scenes tour to see how this 160-year-old institution is able to house over 46 million specimens. Then, take in some 360-degree views from the top of the Hamon Observation Tower before boarding your plane home.

**A GLOBAL EDUCATION, STARTING IN NORTH AMERICA**

Together with teachers, we're helping students discover the life-changing power of travel on educational trips throughout North America. By discovering new places and cultures, your child will create unforgettable memories as they learn more about themselves, the world, and their place in the world. And with EF on your side, you'll have the World Leader in International Education to make it possible.

**Full-service support**

You and your child have a committed team ready to answer any questions, handle payments, or simply offer advice on what to pack.

**Rooted in education**

We're accredited by five prestigious organizations, and believe in finding new, fun ways to engage students in valuable learning experiences.

**Commitment to safety**

Professional overnight security, a 24/7 Tour Director, and 24-hour emergency service are just the beginning. Your child's safety is our top priority.

**Focus on affordability**

We always offer the guaranteed lowest prices so more students have the opportunity to travel and experience the world.
