EF Global Leadership Summit

Kyoto: Emerging Technology

July 5–14, 2028

Technology has always been at the heart of human progress, shaping how we learn, work, and connect across cultures. And right now, emerging technology—from robotics and artificial intelligence to digital communication and beyond—is transforming our lives faster than we ever imagined. The question isn't whether change is coming; it's how we can fully embrace it. Journey through Asia and join us in Kyoto, Japan for EF's 2028 Global Leadership Summit on Emerging Technology. Students will discover how we can use it to reimagine education, redefine careers, and reshape the way humans connect in the world we all share. Sound big? It is. We decide where technology takes us. Let's choose somewhere worth going, together.

What to expect on a Summit

It's all about making an impact in the way that matters most to you. You'll have opportunities to explore global topics to find what motivates you, combine that with your new, hands-on discovery of what matters to others, and use it all to make a difference that will last far longer than the Summit experience itself.

Thought leaders among us

Our trip experts tackle critical workshops and discussions. Past Summit speakers include Al Gore, Jane Goodall, Sir Ken Robinson, and Soledad O'Brien.

Change you can feel

From innovative thinking to public speaking, every moment at Summit is designed to inspire growth.

Project-based learning

Working on a local international team, you'll use the design thinking process to create and present solutions to a global challenge.

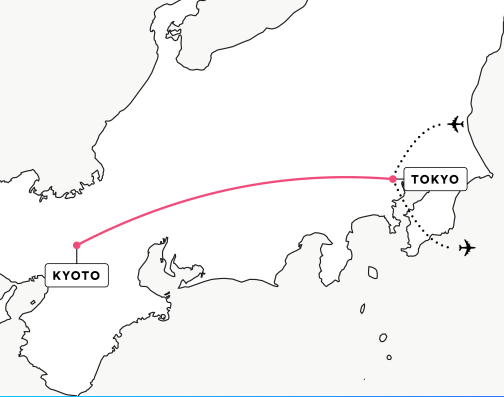

Immersive travel

Explore Asia on an immersive educational tour centered around social responsibility.

Summits are open to rising 9th graders through graduated seniors.

Leadership Conference & Tokyo:
The Future of Learning

Your itinerary

What does learning look like when technology rewrites the rules? Students will examine how emerging technology is changing not only what people learn, but how they learn it. Through immersive art environments, robotics education, and a local school visit, students will see how Japan is making learning more collaborative and built for the future. Along their journey, students will join the EF Global Leadership Summit in Kyoto to collaborate across cultures, hear from changemakers, and discover their role in a world being transformed by emerging technology.

Your experience includes

Airfare & transportation

Hotels

Regional-style meals
