

QUATTRO[®]

WHISPER-QUIET GRAVITY FOLD

We are pleased to announce the extension of our gravity fold option to the entire Quattro line, now including wooden seat bottoms. Designed with theaters, performing arts venues, and places of worship in mind, this new option features a near silent gravity fold, perfect for maintaining an undisturbed audience experience.

Enjoy the whisper-quiet operation and reliable maintenance-free mechanism that ensures the smoothest controlled return. Precision engineered with maintenance-free internal components, this option maintains the Quattro's signature elegance and visual appeal.

Entirely by design.
