Re: Greenberg® Brand Retractors – Worldwide Exclusive Source

To Whom It May Concern:

Symmetry Surgical's broad portfolio brings together the rich history and distinctive product lines of the stainless steel and titanium surgical instruments from Codman, the surgical instruments from Symmetry Surgical, Inc. and the electrosurgery instruments from Olsen Medical.

Among the products that Symmetry Surgical is proud to sell are the Greenberg® brand cranial retractors and related accessories. Symmetry Surgical is the exclusive worldwide source for the Greenberg® brand Retractor System and no other company or individual is authorized to manufacture, market, or sell the Greenberg® brand retractor system or its components.

Symmetry Surgical values strong partnerships with our surgeon inventors and we work closely with Dr. Jeffrey Greenberg, son of Dr. I. M. Greenberg, to bring new solutions to the surgical retractor market.

Sincerely,

SYMMETRY SURGICAL, INC.
