# The Bag II

## Transparent Disposable Resuscitators

All of the outstanding features available in a reusable resuscitator with the convenience of a disposable resuscitator. Performance, versatility and convenience when you need it most.

In keeping with our commitment to provide quality products to help you save lives, Laerdal's The Bag II is an important supplement to our complete product offering for Prehospital, Hospital, and the Military.

# The BAG II Product Features and Benefits

## Three Bag Volumes; Adult, Child, Infant

- Appropriate volume for the patient
- Allows the clinician a closer match to the volume needs of the patient without hyperinflation

## Latex-Free

- Safe for latex-sensitive patients and staff

## Disposable

- Single use, helps reduce risk of cross contamination
- No loss of reusable inventory

## 35cm Pop Off Available

- Infant/Child models only

## Masks

- Soft cushion with clear housing to view patient's skin color

## Temperature Range

- Performs well in both high and low temperature conditions
- Operating temperature 14-122°F (-10 to +50°C)

## PVC Construction

- Superior feel of lung compliance
- Transparent construction
- Ergonomic design

## Adjustable Hook and Loop Handle

- Reduces hand fatigue

## Reinforced Non-Kink O<sub>2</sub> Tubing

- Prevents flow obstruction

## Oxygen Reservoir

- Allows 99-100% O<sub>2</sub> administration

## Universal Star-Lumen Oxygen Tubing

- No need to have adapter, tubing fits directly on flowmeter
