SUZANNE KASLER

COLLECTION II

In her second collection, celebrated interior designer Suzanne Kasler draws inspiration from her personal collection of decorative textiles compiled during her world travels. The result is the perfect juxtaposition of casual yet refined style, created through modern graphics and ethnically-chic patterns in her signature palette of sophisticated neutrals and colors. Multicolored paisley, hand-embroidered damask, and bohemian-inspired suzani, along with decorative tapes in striking geometric patterns, offer a sophisticated touch to any stylish interior.
