ARTISAN COLLECTION

HAND BLOCK PRINTED

The beautiful “Artisan” collection by GP & J Baker celebrates the ancient art of hand block printing, which was integral to the company’s early successes.

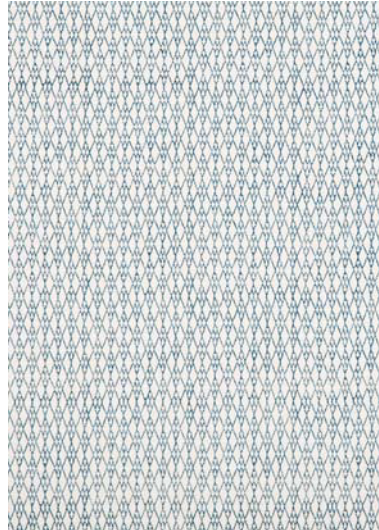

This rare craft uses incised wooden blocks, skilfully carved by a master craftsman, to imprint precise repeats resulting in a highly artistic and unique effect, impossible to achieve by any other method. Each artisan printer brings a very personal quality to the fabric meaning no two impressions are the same, adding texture and character to the final design.

These exquisite patterns have been painstakingly printed on to robust linens and smooth cottons in a subdued colour palette ranging from deep indigo to pale aquas and neutrals.

“Artisan” also pays tribute to the art of decorative embroideries using traditional stitchwork on heavy linens to create contemporary designs. Together these two time-honoured skills have created an exciting forward looking collection.
