COMMUNITY LEADERS & COFFEE CAPTAINS

We're excited to reintroduce Continental Services as your dedicated partner for premium coffee service. Since 2014, we've proudly supported GM facilities with consistent, high-quality service—and we're thrilled to continue that tradition with you.

At Continental, we believe great coffee is more than just a beverage—it's a powerful workplace benefit. Here's why premium coffee matters:

- Boosts morale and enhances the everyday work experience
- Encourages productivity by keeping employees energized and on-site
- Reflects your company's investment in its people and image
- Delivers real value at a manageable cost

Our specialty brands are thoughtfully curated with a focus on quality, sustainability, and local partnerships. One of our proudest collaborations is with Becharas Brothers Coffee, a third-generation roaster based right here in Detroit. Together, we've created Built & Brewed Coffee Company, our signature line of small-batch coffee blends. These are available in both fractional packs and whole bean varieties.

We also offer a full portfolio of nationally recognized coffee and tea brands, including Starbucks, along with all your refreshment essentials—cups, creamers, sweeteners, and more—delivered straight to your designated area.

Thank you for the opportunity to serve you. We look forward to fueling your team with the coffee experience they deserve!
