

# Bank Payment

## The new way to pay.

Meet your customers' needs in an ever-evolving payments landscape with Bank Payment—an innovative new Open Banking-based payment method. Bank Payment leverages the European Union's Second Payment Services Directive (PSD2) to let your customers pay for online purchases directly from their bank accounts.

### The benefits of Bank Payment are real.

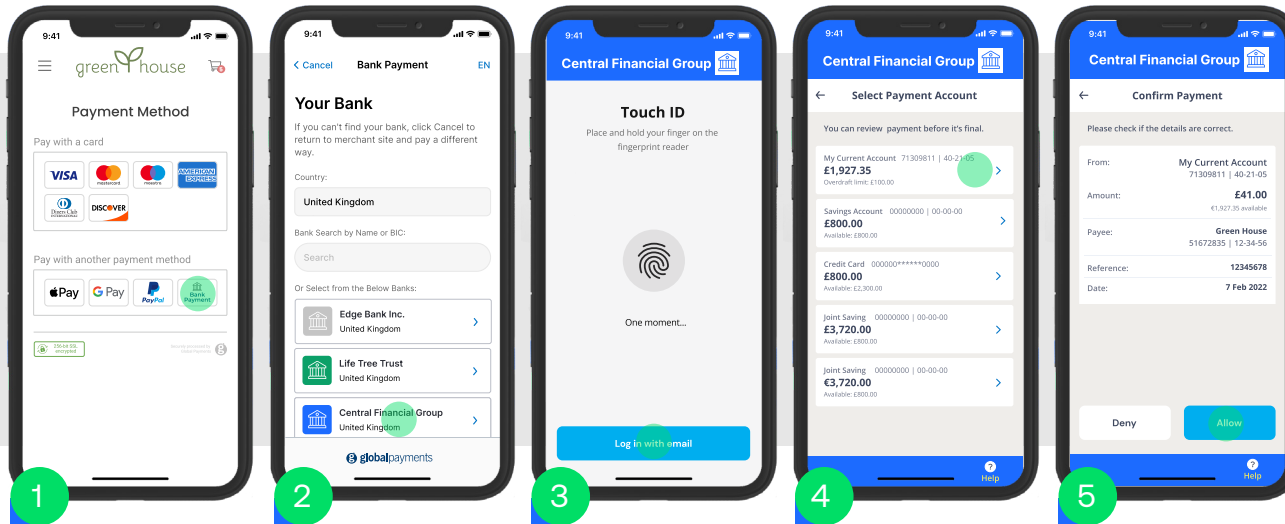

- **Improve the customer experience.** Allow customers to pay online through an easy, intuitive process using their online banking credentials.
- **Satisfy buyers across Europe.** Available to virtually all customers with online bank accounts in the United Kingdom and Europe.
- **Reduce expenses.** Lower payment acceptance costs by adding a payment option that costs less than most (including third-party bank transfer networks).
- **Increase safety and security.** Customers authorise payments using their secure online banking credentials that use multi-factor authentication to help lower the chance of fraud and related disputes.

We make it simple to integrate all the payment options your customers prefer—including Bank Payment—into your checkout through a single integration, using a single API.

## BANK PAYMENT

### How your customers use Bank Payment.

1 Select Bank Payment as payment option at checkout

2 Select bank from the list provided

3 Login to account by entering secure online banking credentials

4 Select the account from which to pay

5 Confirm the payment

## Flexible funding options—the choice is yours

Choose between daily and immediate payment funding.

- **Daily funding:** All transactions are consolidated and funded once per business day for easy reconciliation.
- **Immediate funding:** Real-time funding of each transaction for improved cash flow.

Regardless of which funding option you choose, we provide all reporting and billing—simplifying and streamlining your operations.
