

Environmental Mitigation Grants for Corporate Truck Fleets

What Can Ryan Do for You?

Grant Expertise

As part of the Volkswagen Mitigation Settlement, the federal government has allocated \$2.9 billion in funding across all 50 states and U.S. territories to improve air quality by removing aging vehicles from operation. Organizations that own and/or operate qualifying vehicles can utilize this funding to offset the cost of replacing or repowering aging diesel vehicles and/or equipment.

At Ryan, our professionals work with clients to identify eligible vehicles and equipment, advise on each state’s funding requirements, prepare required grant applications and support documentation, as well as monitor and assist with compliance requirements.

Superior Results

Five Ryan clients have secured grant funding totaling nearly \$20 million in the last two years.
