

Abandoned and Unclaimed Property

PEAR: Pre-Eschat Asset Reunification Services

Ryan is recognized as having one of the largest and most proficient Abandoned and Unclaimed Property (AUP) practices in the country. With our recent expansion into Search and Location services, Ryan is now distinguished as the most comprehensive provider of unclaimed property solutions.

Ryan's Pre-Eschat Asset Reunification (PEAR) program is a recent addition to our nationally recognized AUP practice under our Search and Location services. Ryan's PEAR program provides a robust outreach campaign that analyzes client files for missing account holder data, conducts in-depth research, and assists "Lost" account holders in claiming their assets. Our specialists work with the account holder in an effective and yet respectful manner, representing our client's interests with a thorough approach. We explore the nature of the situation for each "Lost" account holder and determine the best course of action to achieve resolution.

Without a comprehensive program, corporations will continue to accumulate administrative costs, risk exposure, and escheatment obligations. An increase in unclaimed property invites fraud, creates reputational risk through escheatment, and can result in significant liability assessments or settlements.

Ryan's team has years of experience and an unparalleled reputation as a trusted advocate. We aid numerous corporations with complex unclaimed property compliance initiatives, positioning Ryan as the only true full service provider of abandoned and unclaimed property solutions. Ryan's AUP practice is comprised of former unclaimed property auditors, certified public accountants, certified fraud examiners, and attorneys. Our Search and Location experts employ proven methodologies to data-mine, locate, and assist claimants in recovering their unclaimed property. In doing so, we mitigate client risk and protect client profitability.
