Diane von Furstenberg is bringing her legendary sense of print and color, as well as her confidence and boldness in mixing unexpected patterns and scales, to an exclusive collection of fabrics for Kravet.

Von Furstenberg's first fabric collection for Kravet is the perfect way to bring high fashion home. Incorporating the iconic designer's signature bold animal prints, such as Spotted Cat and Funky Zebra, the collection has a strong foundation in black and white with pops of color. Geometric and abstract prints are also featured, for an eclectic blend designed to be mixed and matched. Color palettes range from berry and orange jewel tones inspired by the sunsets in Rajasthan, to azure blues that recall the Caribbean sea, and desert-inspired neutrals in sand and stone.

The collection also includes custom designed trimmings to accent the fabrics with an exotic edge true to von Furstenberg's renowned aesthetic.

Design your life!
love
