The engravings and paintings of Goya that portray Spanish folklore and the greatness of the Roman Empire with its infinite roads are both sources of inspiration for our new designs.

Via Magna

The Via Magna collection invites us to walk along the cobblestone routes of ancient Rome, which with their stone paving, mosaics and tiles, have inspired vivid geometric and ornamental designs, immersing us in the history of art and architecture of the great Roman Empire. Via Magna is a contemporary and versatile collection that delivers the aesthetic essence of ancient Rome for the modern interior.

Menfis

In the ancient Egyptian capital, Menfis, linen clothing was worn exclusively due to the belief that it was the purest cloth. This Egyptian passion for linen which has been known since 5000 BCE inspired us to create a collection of linens with a rustic touch and light appearance that are offered in warm natural tones.

GOYA

Along with famous painter Francisco de Goya, The Goya collection pays tribute to Spanish art and folklore. Uniquely, the collection represents our culture and the chiaroscuro pictorial art thru iconic prints, ornamental designs and beautiful damasks. Inspired by the classical and theatrical, this collection is both stylish and sophisticated in character.

Cabo Verde

Cabo Verde is an idyllic natural enclave considered to be a bridge between cultures, having been a Portuguese colony and the site of Ribeira Grande, the most ancient European settlement in the tropics. This African archipelago inspired us to create a collection of sophisticated silks with subtle sheen that coexist alongside light curtain fabrics and rustic natural textures.

Ethereal

Ethereal is something intangible, yet subtle and sublime. It is this feeling of delicate beauty that inspired us to create this timeless collection of rich satin textures that provide a touch of elegance and sophistication to any decorative scheme.
