

MICHAEL BERMAN TEXTILES
FOR KRAVET COLLECTIONS

Hanging fabrics left to right: Tangram in Sulphur (411), Elroy in Sulphur 3990-411, Sightline in Olive (416).

Synonymous with the casual West Coast lifestyle, Michael Berman's modern textile collection draws on motifs emblematic of California's flora & fauna, Palm Springs' Modernism and mid-century architecture, and materials inspired by classic Hollywood fashion. Featuring subtle patterns, modern geometrics, luxurious textures and delicate embroideries, this is a unique collection of upholstery grade and light weight fabrics. An easy to use palette evokes sun drenched neutrals, arid desert floor earth tones and brilliant pops of cinematic color. Designed for ultimate comfort and styling, the collection encompasses everything that reflects the effortless aspirational art of California living.
