CELERIE KEMBLE

- 5 finial styles
- 7 finishes - 4 Standard; 3 Premium
- 2 rod styles - 1¹/₂" diameter; available in 3 lengths
- Coordinating rings and brackets
- In-Stock Collection

FINISHES

The Celerie Kemble collection is a combination of hand painted finishes as well as premium gold and silver leaf finishes.

These are individually hand applied by experienced artisans. Due to the nature of this process, a slight variation of color may occur from piece to piece.

All photography is, at best, a representation of color. Actual finishes may vary slightly.

RECOMMENDATIONS

Please consult a professional installer for the application of all drapery hardware products.

We recommend a minimum of three support brackets for every 8 feet of rod length. When a wood rod is re-cut to be made smaller, a new opening/hole will need to be made. That opening should be 3/16" or 5mm to allow for the finial screw to fit properly into the drapery rod.

A connector rod must be used to join two metal rods together. Whenever two wood rods or metal rods are connected, a bracket is required for additional support.
