## MODERN LUXE COLLECTION II

- 6 finial styles
- 3 metal finishes
- 2 rod styles – 1 3/8" diameter; available in 3 lengths
- Coordinating rings and brackets
- In-Stock Collection

### FINISHES

The Modern Luxe II collection is a combination of hand finished metals and acrylic accents. Due to the nature of the metal finishes, slight variations may occur from piece to piece.

All photography is, at best, a representation of color. Actual finishes may vary slightly.

### RECOMMENDATIONS

Please consult a professional installer for the application of all drapery hardware products.

We recommend a minimum of three support brackets for every 8 feet of rod length.

A metal connector must be used to join two metal rods together, and a double sided screw must be used to join two acrylic rods together. Whenever two rods are connected, a bracket is required for additional support.
