the Designer **Wallcovering** *Resource*

kravet[®]inc. | KRAVET | LEE JOFA | BRUNSCHWIG & FILS

Introduction

We all recognize the impact and creative opportunity that lies within choosing wallcovering for a space. The proper design can transport you to a tropical paradise, with flora and fauna, or take you on a whimsical journey through time with historical toiles and chinoiserie. The wonderment of wallcoverings never ceases to amaze us. Each design style offers a distinctively poignant point of view for creating truly magical interiors. It holds transformative power, giving designers the ability to bring their visions to life; where creativity holds no boundaries.

We have organized this catalog by design style, giving you a starting point for each project, and an easy to use reference guide. Within each design category is where the real fun begins...page after page of inspiration and style; allowing you to find the perfect choices to meet all design needs. We hope you find this a useful tool that helps to ease the search and facilitates a seamless shopping experience. In addition, we put the power of technology to work with QR codes on every sku, giving you instant access to all the information needed to inform your decisions.

We invite you to explore the pages of this catalog and be inspired to cover those walls, or even the ceiling, with one of our many superb design choices.
