

AREA RUG & BROADLOOM COLLECTION

kravetcarpet

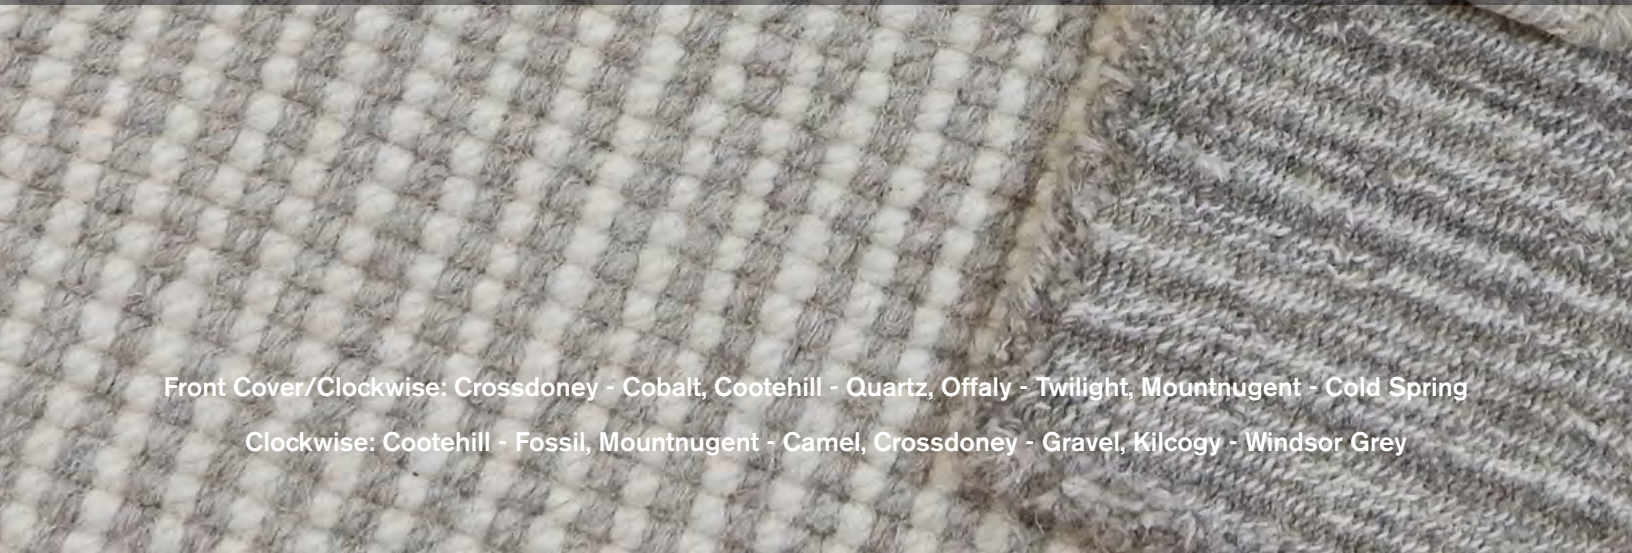

Kravet Carpet introduces a collection of wool carpets celebrating the beauty of texture and stries for the floor. These can be finished as area rugs with self serging, installed wall to wall or schemed to connect spaces. They are visually inviting and provide a soft, comfortable area to walk, stand, sit and play.

Artisan area rugs offering performance properties in multiple design options, created with tonal and fashionable colors for any residence. Fine wool naturally has superior stain and fade resistance, long-lasting durability and is easily cleanable. It retains it's shape to eliminate tracking marks and is resistant to fire and static electricity. It repels mold, mildew and constantly regulates its environment. It is also non-allergenic, preventing the growth of bacteria or dust mites. The wool used in these rugs is renewable, sustainable and biodegradable.

Wool is a natural protein grown directly from sheep without the use of chemicals. It controls temperature as it is cool to the touch, but maintains warmth during the colder months and insulates from heat in the warmer months. In addition, wool absorbs moisture from the air to reduce humidity and releases it back into the air during times of dryness.

Hand Loomed/Tufted in India • Wool • Area Rugs and Wall to Wall Available
