

## Interwoven Corner Installation Pictorial

ISLAND STONE

How to install Interwoven on a single outside corner.

	
<p>Interwoven corners come in a set of four pieces as shown. They are identified as 1A, 1B and 2A, 2B for the purpose of these instructions.</p>	<p>This image shows how the four pieces fit together with the two longer corners paired along the first row and the two shorter corners paired along the second row.</p>
	
<p>Step 1: Begin installation at base of corner placing piece 1A as shown. The circled edge of the piece should be flush with the adjoining wall.</p>	<p>Step 2: Place piece 1B along the base of the adjoining wall so that it interlocks with piece 1A as shown.</p>
	
<p>Step 3: Place piece 2A as shown. The circled edge of the piece should be flush with the adjoining wall.</p>	<p>Step 4: Place piece 2B on adjoining wall so that it interlocks with piece 2A as shown.</p>

**Interwoven Corner Installation Pictorial**

<p>Step 5: With your four corners assembled you can now use Interwoven Panels along your bottom row to complete both sides of the wall moving outwards from the corner as shown.</p>	<p>Step 6: Follow the same approach on your second row, use Interwoven Panels to complete both sides of the wall moving outwards from the corner as shown.</p>
<p>Step 7: Repeat steps 1-6 for subsequent rows.</p>	<p>Step 8: Continue building upwards until project is complete.</p>
