Tile set in
adventure

Anchored in the wanderlust of exploration, culture, and design, Island Stone creates products honoring this spirit of discovery.

We set our foundations in stone and continue to evolve our creative use of natural and timeless materials to set our souls and the design world free.

Our team is inspired by three core values: respect, smart work, and relentless improvement. We hope Island Stone products allow you to bring the feeling of your most inspirational adventures into your favorite spaces.

110-111 Glass
112-114 Stone

RECOMMENDED USAGE

- 115 Tile Usage Icon Guide

Tierra - Duna - Sand - Natural

The background of the entire page is a wall of light grey ceramic tiles. Each tile has a raised, geometric pattern of radiating lines. In the top right corner, a portion of a light brown woven straw hat is visible. In the bottom left corner, several large, vibrant green leaves of a monstera plant are shown, partially overlapping the tiles.

Ceramic

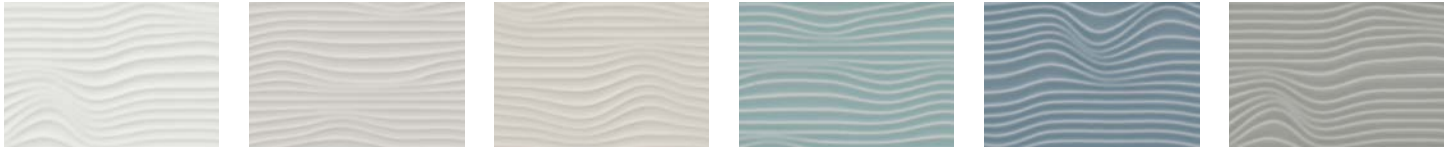

Our journey to incorporate ceramics into our company's offerings was guided by a vision of capturing the essence of our unique Island Stone aesthetic in distinctive tiles. Our Ceramic Collection is the result of meticulous craftsmanship and a commitment to quality, designed to work flawlessly to complement our existing range of natural stone and glass products.

Features and Benefits

- The crafting of the Nomad Collection is based on generations of fine glazing and tilemaking experience from a historic factory in Spain.
- The unique character of Nomad comes from blending 6 tones in each colorway and applying the glaze to optimize the relief and textures in every tile.
- Stringent quality standards and lot management for each batch of tile.
- Nomad is made in the same size as the Glass Essentials Collection for seamless combinations when mixing materials.
- Mix 36 unique field and decorative tiles to create custom installations in a combination of gloss and matte finishes.
- Colors are designed to pair with Island Stone's natural stone collections and are based on our most popular glass colors.

Features and Benefits

- Super clear (low iron) glass allows for brighter and more vibrant colors.
- Smooth edge for cleaner grout joint appearance.
- Tile color is fused onto the back of the glass to protect the color from potential surface damage.
- Opaque white paint is fused to the back of the tile to maximize the brilliance and consistency of the color.
- Superior annealing significantly increases the glass tile's durability.
- High tolerance quality control for accurate size, shape, and mosaic pattern layout.
- Designed for submerged applications using alkali-resistant mesh adhered with non-water-soluble glue.
- Custom sizes and colors available upon request.

Illusions - 6"x 12" - Radiance - Matte

Illusions

Enter the realm of Illusions, where Italian craftsmanship manifests in a symphony of color and light. This high-fashion tile collection marries the old-world charm of handmade glass with a contemporary flair, showcasing an antique mirror technique that infuses unique metals onto the glass's back. Each large-format tile in the Illusions collection is a canvas where the dance of colors comes alive, creating spaces that speak the language of luxury and bold artistry.

ILLUSIONS

Available Colors

Afterglow

Radiance

Features and Benefits

- Unlike most mirror-backed glass tiles, Illusions glass can be successfully installed in intermittent wet applications such as tub or shower walls including steam shower walls.
- Smooth micro-beveled edge for cleaner grout joint appearance.
- Superior annealing significantly increases the glass tile's durability.
- Proprietary antique mirror technique, coupled with the fusion of white paint to the back of the tiles maximizes the brilliance and consistency of the color.
- Works well with other glass lines, offering strong accent options.
- Each piece is unique so no two installations will ever be the same.
- Custom sizes and colors available upon request.

Impressions - 3.5"x12"- Glacier - Gloss

Impressions

Impressions is a testament to the transformative power of design, turning the industrial chic of concrete into an elegant glass tile. With its meticulously curated colors, this collection integrates effortlessly with a wide range of design palettes, making it a perfect choice for standout projects. The colors are digitally printed onto the back of durable glass, ensuring that the tiles withstand the tests of time and trend. Perfect for interior and exterior walls, fireplace walls, shower walls, steam shower walls, and for pool, spa & water features, Impressions offers a modern twist on classic sophistication for both commercial and residential spaces.

Available Colors

Glacier

Horizon Blue

Features and Benefits

- Digitally printed with durable glazes onto the back of the tile, ensuring resilient installation and long-lasting quality.
- Each size is offered in a varied mix of patterns across different tiles, ensuring a naturally varied appearance and sense of movement.
- Super clear (low iron) glass allows for brighter and more vibrant colors.
- Smooth edge for cleaner grout joint appearance.
- Opaque white paint is fused to the back of the tile to maximize the brilliance and consistency of the color.
- Superior annealing significantly increases the glass tile's durability.
- High tolerance quality control for accurate size, shape, and mosaic pattern layout.
- Mesh backing applied with a special adhesive allows for the use of mosaics in intermittent wet and submerged applications.
- Custom sizes and colors available upon request.

Patina

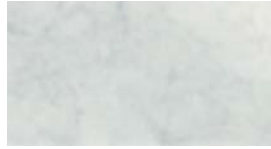

The Patina Glass Collection merges the timeless allure of antique glass with the sophistication of modern subway tiles. Each tile is a canvas of abstract speckles and cloud-like wisps, presenting a unique interplay of color and light. Its curated color palette ensures impeccable coordination throughout our product lines to seamlessly integrate and elevate your design vision.

Available Colors

Gloss

Sublime

Silver Lining

Bright Side

Champagne

Evening Onyx

Features and Benefits

- Super clear (low iron) glass allows for brighter and more vibrant colors.
- Smooth edge for cleaner grout joint appearance.
- Tile color is fused onto the back of the glass to protect the color from potential surface damage.
- Double-layered back paint is fused to the back of the tile to maximize the brilliance and consistency of the color.
- Superior annealing significantly increases the glass tile's durability.
- Mirror-backed glass tile that can be successfully installed in intermittent wet locations.

Lava - 1"x 2" Offset - Burning Ice - Lava

Lava Glass

Innovation meets artistry. We built Lava Glass from the ground up, creating a tile that performs in the harshest outdoor environments. Our proprietary double annealing process ensures unmatched strength and durability, while the fusion of iridescence and color delivers a lava-inspired texture that adds a captivating dimension that gleams both in and out of the water. Designed for fast and flawless installation.

LAVA GLASS

Available Colors

Liquid Rock

Deep Flow

Solid Ash

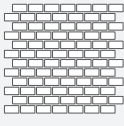

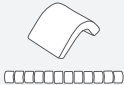

Obsidian Shine

Features and Benefits

- Exceeds industry standards for: Freeze/Thaw, Thermal Shock, and Submerged Applications.
- Designed for submerged applications using alkali-resistant mesh adhered with non-water-soluble glue.
- Fused back paint for ease of application and superior bond strength to setting material.
- 1"x 1" & 1"x 2" are modular. Sheets can be cut in half along mesh to use as a standard 6" waterline.
- Easily cut on a wet saw.
- Slip Resistant finish available by Special Order, adding safety without compromising on style and aesthetics.
- Innovative V-Cap Strip design.
- Unique surface texture reduces grout and long-term maintenance challenges.

Sukabumi Select - 4"x 8" - Honed

Pool Stone

Favored for decades in 5-star resorts in exotic locations, Sukabumi Select is considered the preeminent stone for premier pools throughout the world. Stunning shades of green mirror the ever-changing colors of the ocean, bringing the beauty of natural stone to your pool projects. We've revolutionized the production process, ensuring square, even thickness for unmatched performance combined with exceptional beauty.

SUKABUMI SELECT - POOL STONE

Available Colors

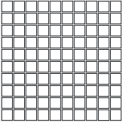

Sukabumi Select

Features and Benefits

- Each piece is meticulously hand-selected, guaranteeing square and precisely calibrated thickness for seamless installation.
- Precision-cut tile is finished with a honed surface for an ideal balance of texture that is naturally slip-resistant and easy to maintain.
- Diverse selection of sizes, including mosaic options, to create remarkable pool designs.
- Features natural durability.
- Suitable for both interior & exterior applications in non-freezing residential & commercial environments.

Stone Pebble Tile

The Pebble series is Island Stone's original and largest range of tiles. Crafted by nature, the stones are hand sorted for color, then laid into our exclusive interlocking format to create an easy-to-install tile with no visible seams. And because we own our own factory, we are able to maintain the quality of finished product to a consistently high standard. Discover the first and still the highest quality and diverse range of pebble mosaics in the world.

The Island Stone Guide to Usage Icons

At Island Stone, we observe, test, and analyze all our tiles to determine how they will perform in your space. We use industry standard specifications to ensure our stone, glass, and timber products meet all the requirements for various applications - whether that's a wet or dry setting or indoor vs. outdoor. As you explore Island Stone products, you will notice that each has its own set of usage icons, which identify where that tile product can be installed. We've put together a handy guide explaining each usage icon and the details you need to know for installation.

Interior Wall

All Island Stone products are suitable for interior walls, as it is one of the least demanding locations for the tile installation and maintenance.

- Residential or commercial appropriate
- Acceptable substrates: dry wall, cement board, mortar bed, and fiber cement board

Interior Wall and Floor

If a tile is suitable for an interior floor application, it is also suitable for a wall application.

- Residential appropriate
- Commercial usage possible (Floor tiles may need to meet additional performance standards based on the intended commercial usage. Contact Island Stone for more information.)
- Greater durability and strength

Kitchen Backsplash

While kitchen backsplashes may get the occasional splatter, this usage icon indicates that tile is appropriate for a kitchen backsplash including behind a range or stovetop (gas or electric).

- Residential appropriate
- Commercial usage possible (Backsplash tiles in a commercial kitchen are not common, but not impossible. Contact Island Stone for more information.)
- Kitchen backsplashes are dry locations

Kitchen Backsplash and Countertop

Similar to Interior Wall and Floor, a tile that is suitable for both backsplash and countertop will be more durable, as countertops will experience more activity.

- Greater durability and strength
- Scratch resistant

Fireplace Wall

The important distinction with tiles that are labeled with the Fireplace Wall usage icon is that they can be used around the fire box, but not IN the firebox.

- Residential or commercial appropriate
- Fireplace wall location only (not inside the firebox or on the floor)

Fireplace Wall and Floor

Tiles with this usage icon meet the same specifications of "fireplace wall" but can be used on the floor, in front of the fireplace, and are:

- Slip resistant and scratch resistant
- Fireplace wall and floor (hearth) appropriate (not inside the firebox)

Shower Wall

Shower walls are intermittent wet locations that alternate between wet and dry.

- Residential or commercial appropriate
- Durable under moisture

Shower Wall and Floor

Tiles that can be used on the shower wall and floor are going to be more durable and slip-resistant.

- Residential or commercial appropriate
- Scratch resistant and slip resistant
- These tiles often have more texture, as very smooth tiles pose a slip hazard

Steam Shower Wall

In this intermittent wet location, tiles must be able to withstand exposure to higher heat and the pressure from a steam generator.

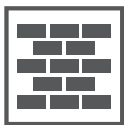

- Residential or commercial appropriate
- Greater durability

Steam Shower Floor and Wall

Similar to steam shower walls, these tiles are going to be more durable and slip-resistant.

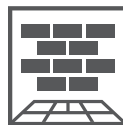

- Residential or commercial appropriate
- Greater durability
- Scratch and slip resistant

Exterior Wall

Exterior environments vary. Not all tile rated for exterior installation will perform in all applications. When extreme weather conditions will occur (hot and cold) confirm the tile's performance will meet the specific demands of the environment. Contact Island Stone for more information.

- Residential or commercial appropriate
- Greater durability and strength
- Generally free-thaw resistant and UV stable

Exterior Wall and Floor

Tiles with this usage icon meet the same specifications of "exterior wall," but are:

- Slip resistant
- Greater scratch resistance

Pool, Spa, and Water Features

As its name suggests, this icon specifically references tiles for pools, spas, and water features - whether it is fully submerged, partially submerged, or never submerged.

- Resistant to moisture and hydrostatic pressure
- Greater durability and strength

For any questions on how Island Stone tiles can be used in your applications, contact us!
