

Solstice Tier 2 Peripheral Devices

Mersive tested the following devices for Solstice video conferencing with the listed versions of Solstice and device firmware. They have been certified for use with top video conferencing services on supported versions of Windows. Mac users should select one of the devices marked as supported on Mac. Tier 2 devices may not be retested with every version of Solstice.

See the [Solstice Supported Peripherals](#) list for peripheral devices currently supported for video conferencing with Solstice.

Device Name	Part #	Type	Latest Tested Firmware	Latest Tested Solstice Version	Notes	Mac	
AMX Acendo Vibe (ACV-5100)	FG4151-00BL-UA/EK (Black), FG4151-00GR-UA/EK (Grey)	videobar	MCU: 3.1.2 DSP: 7.11.0.13 BT: 1.35 HDMI: 01.01.02	6.1	Use USB audio device prioritization to select the built-in mic for video conference audio.
