

BUILT TO LAST

Do it Right the First Time

For years, we've built premium-performing, high quality windows, and we've replaced over a million of this country's best known brand name wood and aluminum windows. So, when investigating which brand of windows to use in your new home or addition, why settle for one that you may need to replace in a few years? Why not skip the aggravation, not to mention the added cost, and do it right the first time with Sunrise Windows!

◀ Sunrise Windows are designed for weather tight installations in new construction applications. The nailing flange is pre-punched so the window can be secured to the home. Protective moisture wrap should then be applied on top of the nailing flange completely around the window's perimeter. Our integral narrowline J-Channel design enhances the double contoured exterior narrow-line design of the window and integrates beautifully with your home's siding.

Guaranteed for a Lifetime of Enjoyment

You're building a new home, or perhaps putting an addition onto your current home. Whatever the case may be, the

investment is certainly a large one, and one that you expect to enjoy for years and years into the future.

With Sunrise Windows, you not only get one of the industry's most energy efficient windows, you get windows that are guaranteed to last as long as you live in your home, and a warranty that can even be transferred to the next homeowner. **Now, that's a smart investment!**

▶ Our windows feature a narrowline, double-contoured, sculptured main frame, along with a fusion-welded integral nailing flange and J-Channel, which makes for an easy, trouble-free installation. Our J-Channel opening is 3/4" deep in order to accommodate most high performance siding panels.

2 1/4" contoured brickmould application with integrated nail fin provides a modern style to an existing wood brickmould. The profile overlaps the frame and has a 2" cutback.

WARRANTY COMPARISONS

These charts show how many years the various parts of windows are warranted to the original homeowner. All Sunrise windows are warranted for as long as you live in your home, and are not limited to a 10- or 20-year time frame.

For more information on all the window styles, energy efficient glass packages, and decorative finish and hardware options available, please visit our web site at www.sunrisewindows.com or take a look at our full-line Sunrise Windows brochure, available from your Authorized Sunrise Dealer.
