Don't forget to ask for special SMS pricing!

Both vendors have a similar ordering process. Once you've selected which you'd like to do business with, place a call to their toll-free number listed above. When speaking to the representative, be sure you mention you are agent with Senior Market Sales to receive our negotiated discounts. You will then work with them to determine the demographics you would like to target with your mailing piece.

After the order specifics are gathered, the vendor reaches out to SMS to confirm your funding eligibility and amount. They will then finalize the order (with your approval) and bill SMS for our portion and you for your portion. For Level 5, SMS will be billed \$250 and you will be billed the remaining cost. For Level 5+, SMS will be billed the total cost (up to \$500). For Levels 10 and above, SMS will be billed 50% of the total, up to the Level maximum, and you will be billed the remaining cost.

CSG Subscription

Reaching Level 5 of the program will gain you a free subsection to CSG Actuarial Medicare Supplement quoting tools.
