

Mirka® LEROS & LEROS-S

Perfection from any angle

The lightest, most advanced wall and ceiling sanders.

The award-winning LEROS is ergonomic and lightweight, putting less strain on operators' arms and shoulders. It enables perfect surface finishing results and a safe, clean working environment. Its dust-free efficiency dramatically reduces prep and cleanup time. The large 9" sanding head helps to get the job done quickly. When connected to the extension shaft, you can sand ceilings without the need to climb ladders. The shorter LEROS-S features the well-known abilities of the LEROS. It is a compact length wall sander, engineered to perform both in confined spaces and on large surfaces. The LEROS-S has two dedicated grip points for full control when sanding large surfaces.

KEY FEATURES:

- Lightweight – weighs approximately seven pounds
- High flexibility of the sanding head – swivels to any angle
- 5 mm random orbital movement – provides high-quality surface finish
- Full force system – no need to press the tool against the wall
- Dual suction points – provides efficient dust extraction
- Two lengths available – LEROS (57") + LEROS-S (35")
