

Pneumatic Belt Sanders

Mirka's New Pneumatic Belt Sanders (PBS) Get the Job Done

Mirka proudly introduces the latest Pneumatic Belt Sanders for use in all types of vehicle body manufacturing and repair as well as marine vessel manufacturing and repair.

Along with grinding applications such as spot weld removal, sanding of weld joints or removal of excess epoxy and sealers, the PBS are ideal for rust, paint, and adhesive removal and preparing surfaces for gluing and riveting.

Safety covers on the latest tools from Mirka throw sanding debris away from the operator, and the tools also feature easy-to-adjust speeds and angles.

Made from lightweight, high-tech materials that provide outstanding power and durability, these high-quality, ergonomic, compressed air-powered grinding tools work especially well with Mirka's line of ceramic Mini File Belts.

Simply put, PBS gets the job done - even in hard-to-reach places!

Part Numbers

Description

PBS-13457

Mirka Pneumatic Belt Sander Non-Vac, .5" x 18"

PBS-10330

Mirka Pneumatic Belt Sander Non-Vac, .375" x 13"

FEATURES AND BENEFITS:

- Safety cover → Throws debris away from operator
- Accessible tension mechanism → Easy-to-change belts
- Speed regulator on top of tool → Effortless adjustment
- Hex key stores in the handle → At hand for quick angle adjustment
- Easily reset angle → Get into hard-to-reach places quickly
- Rubber-coated handle doesn't get cold → Comfortable to hold
- Low noise level → Preferred belt sander for daily use
- Competitive pricing → Affordable addition to tech's toolkit

APPLICATIONS:

Automotive • Marine • Transportation • Safety Vehicle Manufacturing and Refinishing
